Supplement of

Robust, multifunctional flood defenses in the Dutch rural riverine area

J. M. van Loon-Steensma and P. Vellinga

Correspondence to: J. M. van Loon-Steensma (jantsje.vanloon@wur.nl)
Supplement 1

This Supplement presents an impression of each of the five study-locations. The aerial photographs are from Google-earth, and the ‘ground’ photographs are by the authors, and by Hanneke Elema (the photograph of the Grebbedijk). The approximate location of the ground photograph is indicated by a white star.

**Situation Streefkerk**
Situation Marsdijk
Situation Arnhem (Bakenhof)
Situation Munnikenland
