In the recently published version of the paper entitled “Assessment of tsunami hazards for the Central American Pacific coast from southern Mexico to northern Peru” by B. Brizuela, A. Armigliato and S. Tinti, some errors occurred, which we list here below:

- p. 1893, first column, 13 rows from the bottom: “(see Fig. 4)” should read as “(see Fig. 3)”
- p. 1894, Eq. (2) should read as follows:
  \[ \log N = a + \log \left( \frac{e^{-\beta M} - e^{-\beta M_{\text{max}}}}{e^{-\beta M_{\text{min}}} - e^{-\beta M_{\text{max}}}} \right) \] (2)
- p. 1894, Eq. (3) should read as follows:
  \[ \beta = \frac{b}{\log(e)} \] (3)
- p. 1899: Figs. 9 and 10 must be replaced by the figures shown on the right-hand side
- p. 1901, first column: “hazards” should read as “hazard”
